

The Ohio State University

School Partnerships

**2007
Summary**

Dear Friend of Education:

We are pleased to present to you The 2007 Ohio State University School Partnerships Summary. The document provides information on hundreds of cooperative efforts between the university and those who work with school-age children and youth. The efforts highlighted in these pages are testimony to Ohio State's longstanding commitment to preschool-12th grade education.

These partnerships from the 2006-2007 school year represent untold hours of work by students, teachers, faculty, and staff in Ohio schools and communities and at Ohio State. Their efforts result in increased achievement, enriched experiences, and changed lives.

As you look through the document, you will see a remarkable range of involvement, reaching across all 88 Ohio counties and representing more than 230 school districts. Ohio State involvement includes 17 colleges; all regional campuses, the Agricultural Technical Institute, and Ohio Agricultural Research and Development Center; OSU Extension, WOSU, the Department of Athletics, the Office of International Affairs, the OSU Medical Center, the Ohio Supercomputer Center, the Office of Continuing Education, Wexner Center for the Arts, and all support units within the Office of Academic Affairs and the President's Office.

The document is arranged topically and by grade level, preschool-12th grade. The "Featured Programs" section provides in-depth snapshots of selected partnerships, showcasing involvement at every level: across disciplines and grade levels, geographic locations, school buildings, and community sites. A subject index helps locate programs across the sections, a county index pinpoints programs in all corners of the state, and a title index gives access to programs offered at more than one level.

You may access the document electronically at <http://p12.osu.edu>. Although efforts were made to be as complete as possible, this document should be considered a sampling of the programs. If you are involved in, or aware of, a project that is not included, please contact the P-12 Project Office at 614-688-3821 to share information about it.

In addition to the P-12 Project staff, thanks go to faculty and staff from the regional campuses, OSU Extension, and the Office of University Outreach and Engagement for their involvement in this compilation. Additionally, thanks go to Columbus City Schools for its assistance in developing the 2005 pilot document that laid the foundation for our ongoing partnership compilations. A list of individuals who assisted with this edition can be found at the end of the report.

We hope this book will be a valued resource to you and we look forward to many more partnerships in years to come.

Sincerely,

A handwritten signature in cursive script that reads "Nancy Nestor-Baker".

Nancy Nestor-Baker
Director
The Ohio State University P-12 Project

Acknowledgements

Thanks to the following people for their assistance in collecting information for this document:

Sheila Elcess, Ohio State Mansfield
Diana Erchick, Ohio State Newark
Evelyn Freeman, Ohio State Mansfield
Bill MacDonald, Ohio State Newark
Kenneth Martin and OSU Extension staff
Stephen Nameth, Agricultural Technical Institute
Betsy Pandora, Wexner Center for the Arts
Greg Rose, Ohio State Marion
Wayne Rowe, Ohio State Marion
John Snyder, Ohio State Lima
Cheryl Winegard, College of Education and Human Ecology
